# Certification and Licensing Branch—Operator Certification Program

## 2011 Training Schedule—January through April

# ANNOUNCEMENTS!

The Certification and Licensing Program has changed the format of its training schedule for 2011. This schedule will contain a list of the certification schools offered throughout calendar year 2011. Continuing education courses will be scheduled in four-month increments. This schedule will contain the continuing education courses offered by the program through April 2011. The next four-month schedule will be published in late February 2011. This modification gives the program flexibility to offer courses that are important to operators and address new topics or issues as they arise.
