

Funding for Redevelopment

Learn about brownfield grants, how to apply for them and how they can be used to redevelop your community.

Does your community have properties that sit vacant and idle because of suspected environmental issues? A brownfield grant may be right for you. Come to this half-day workshop that will cover grants available from the EPA, how to apply for them and ways to make your application successful. Check out our [agenda](#).

These Kentucky communities received over \$1 million in brownfield funding from the U.S. EPA (Environmental Protection Agency). Since 2007, the Kentucky Brownfield Redevelopment Program has assisted 13 communities in their efforts to receive funding totaling \$5 million.

Do you have questions or comments?
