

## Introduction to Biodiesel Workshop

By now, you have heard of biodiesel, but do you really know anything about it? Have you wanted to use biodiesel but aren't sure how to get started? Maybe you are interested in producing it. This workshop is designed as an introductory course on biodiesel. The workshop will cover basics concepts of

- What is biodiesel?
- How is it made?
- Regulatory Obligations
- Benefits of biodiesel
- Myths about biodiesel
- Ky. resources and case studies

### Who Should Attend?

- Businesses
- Educators
- Agricultural operations
- Municipalities
