

Environmental Management Planning Workshop

If you fail to plan, you plan to fail. Are you in charge of producing your organization's environmental management plan? This process can be daunting, but with the right information, you can manage the environment without it managing you. In this course, we will cover the information you need to know to make your job easier and keep your facility in compliance. Topics will include how to organize your environmental information, develop policy statements, set goals and objectives, implementation and corrective actions. Check out the [agenda](#).

Do you have questions or comments?
