

Waste Management and Reduction Workshop

The Division of Compliance Assistance (DCA) is providing an intro-level workshop will help participants understand how to properly manage and dispose of different kinds of waste. Speakers from the Division of Waste Management and DCA will explain how to identify and manage different types of waste, upcoming regulations and methods to reduce waste generation, including ways to develop and implement a recycling program.

Special guest, Leggett & Platt, Inc., a mattress manufacturer in Winchester and KY EXCEL Member, will discuss their successful recycling and community outreach programs. At the workshop's end, attendees may visit the Leggett & Platt plant to observe the facility and program in action.

What will be covered?

- How waste is regulated and identified
- Requirements for different waste generators
- How to manage universal wastes
- Upcoming regulations
- Methods to reduce the amount of waste generated
- How to develop and implement recycling programs

Who should attend?

- Facility managers and owners
- Environmental, health and safety professionals
- Representatives of retail, manufacturing and industrial facilities
- Representatives of facilities with aerosol cans, solvents, paint, pesticides, light bulbs and ballasts and lawn care chemicals on premises.
